WHO WE ARE

Our History

- SMART International provides Wellbore Cleaning and Well Intervention Technology portfolio including operational design, project management, service, rental and sales.
- Operations cover fishing, milling and severance along with a wide range of Packers and well intervention technologies including well isolation, well abandonment, well surveillance and monitoring.
- The directors of the company are industry leaders with proven track records having previously owned similar businesses, and having worked globally for major service companies, operators. Our focus is on providing a dedicated and responsive service along with industry leading tooling and technologies covering all intervention service portfolios.
- In addition, we can also provide bespoke tool and element design, coupled with engineering and manufacturing capabilities for challenging and non-routine operations.
- The extensive long-term experience, knowledge and intervention expertise of the SMART International and our teams are further strengthened with in-house design engineers thus achieving and maintaining the highest level of customer service and quality.

Mission

- We deliver real solutions for our clients by technology adaptation, a fit for purpose approach and relentlessly challenging the status quo. Through the unique capability of our people and how we work, we simply focus on what our clients need. We don't aim to be the biggest, but the best. We see it, solve it and do it.
- Dedicated to excellence by leveraging competitive advantages in R&D and technology
- To always deliver competent and credible services to our clients, at best way to meet our clients' quality expectation delivery to ensure their projects succeed regardless the challenges encountered, while ensuring health, safety and environmental best practices.

Strategies

- SMART International strategy is augmented through a commitment to further grow via MOU opportunities as well as maintaining its established focus on development opportunities around the globe whilst keeping its portfolio in balance to ensure a steady flow of projects to grow value and reserves

Vision & Values

- The delivery partner of choice for our clients
- To be recognized as a Company and partner of choice in the oil and gas industry for delivering on our promises, pioneering new opportunities and approaches and bringing value to our industry.
- **THE TRUST EARNED** : Trust isn't given, it's earned. By consistently delivering on our promises, whether to our colleagues, or partners, we build successful relationships that are built on accountability and Mutual respect. This is essential to our long-term success.
- **OUR DRIVE TO SUCCEED**: Our passion for what we do comes through in every area of our business. We are confident, committed and open minded, which enables us to pioneer new and better solutions and approaches, whether analyzing data or at the negotiating table.
- **PUTTING THE COMPANY FIRST**: We know we can achieve far more as a Company than we can as individuals. Our collegial culture and flat hierarchy Means we consider different points of view and approaches to deliver the best solution for the business. When the business succeeds, we succeed.
- **ENJOYING THE CHALLENGE**: For us, it is fun to always want to be better, and this Means trying new Things and always looking for better ways to reach our goals. We are proud of what we do and our integrity in delivering it.

WHO WE ARE

We Care

We are genuine, fair and have high expectations of ourselves. We are like family. We pull our weight and watch each other's backs. We care for our people because our people are who we are.

We Solve

We understand our client needs because we collaborate. We align with clients to pursue efficiency and safety and, as partners, anticipate challenges and adapt. We embrace technology to deliver the solutions.

We Deliver

Our focus on delivering value to our clients is paramount and is the cornerstone of our commercial relationships.

HOW WE WORK

- ▶ At SMART International, we pride ourselves on providing innovative solutions – making the Energy, Infrastructure and Natural Resource sectors safer, cleaner and more efficient for people and the plant.
- ▶ We believe in doing the right thing, always, especially when it comes to protecting our people and the environment.
- ▶ We pride ourselves on our strong commitment to social responsibility and we believe that working alongside communities and traditional owner groups, results in positive outcomes for everyone – our clients, our workforce and most importantly, the surrounding community.
